

A diagram illustrating a process tree. At the top is an orange rectangle labeled 'main'. Below it, a horizontal line separates the parent from its children. Three rectangles are positioned below the line: a blue one on the left labeled 'T1', a green one in the middle labeled 'T2', and a red one on the right labeled 'T3'. The rectangles for 'T1' and 'T2' are of equal width, while 'T3' is narrower. 'T2' is taller than 'T1' and 'T3'. The labels are in white text.
